

## BRIDGEWALKING - THE PROSPECT OF SOMETHING SPECIAL

You can go to Sydney. Or Lillebælt. In both places, you can walk above a bridge. Experience the height. The sinking feeling. The spectacular and unimpeded view. Enjoy the water. The ships. The view towards the land. The weather. The weak shaking of the bridge when a train is rumbling over the bridge. Bridgewalking Lillebælt is a new, unique attraction in Europe. In May 2015, the first tourists can take a walk to the top. Please come along and have quite a unique experience, which has not been possible in Europe before.

The walk will start at The Welcome Centre. Here our very skilled guides will meet and prepare you for the wonderful walk you are going to take. You will walk together from the Welcome Centre to The Old Lillebælt Bridge where you will be connected to a security system – and then you are going up! At a height of 60 metres, you will cross the bridge. During the walk, the guide will inform you of the bridge architecture, the history, the building and the nature around Lillebælt. We look forward to welcoming you in the heights!

All participants with a Happy Pass and a children's ticket for Bridgewalking will have a surprise after the walk.

<b>Season</b>	Official opening day 10/05/2015
